

FIRE EYE BIRD DIVERTERS

Marking Schematic For Guyed Towers

Model FE-MT:

Fits - 3/16" - 1" cables.

1/8" x 3.5" x 6" UV-stable impact resistant acrylic flapper / phosphorescent reflective sheeting.

How It Works:

The **FireEye** Bird Diverter reduces collisions using motion, reflectivity, and luminescence emissions.

Phosphorescent decal glows at night per UV index.

The Optical Gel insert appears as fire to avian and bat vision further enhancing visibility to migrating birds.

Cost:

\$ 30.00 each + shipping.

FIRE EYE

Bird Diverter

Reduces collisions
Day and Night
using motion, reflectivity
and light emissions
